Developments

It is always good to 'network' groups of people working in the same country or similar work/projects. This happened recently through a request from a sister, Sr. Maragaret Itadal, The Institute of the Little Sisters of St. Francis of Assisi in Uganda, who asked us for help with a project which was a little beyond our remit. However, we were able to connect her with a fellow Ugandan, Tinah Namusaazi, working in a similar field with women (Sheunit Uganda). We hope sincerely this will work out to mutual benefit. It's good to be able to connect people.
