Sr. Priscilla Ngozi Uche

Congregation of the Sisters of the Two Hearts of Love

Nigeria, Kwara State

In November 2023 Sister Priscilla contacted us through the recommendation of another project, Fr. Chris Amanze. She told us that she was a Registered Nurse, Midwife working in a rural location in Kwara State. She was also engaged in the catechesis of children in their Parish Church. She asked whether we could assist her in any way. Many contacts later we worked out that we could indeed help and so far by God's Providence our parcels are getting through.

We have sent an assortment of baby clothes and children's toiletries as well as our regular catechetical items, such as Rosaries, pictures and booklets. We have established a good relationship and hopefully a useful one.

Sr. Priscilla (centre) together with Sisters of the Congregation (Left)

The Chapel (right) is very simple and we hope to be able to embellish it a little with necessary items.

The Sisters have much work to do, both in the school and Parish. Below, see two sets of children receiving instruction. Both pictures are taken as they received items from us

A typical parcel…

We hope to send many more such as requested.

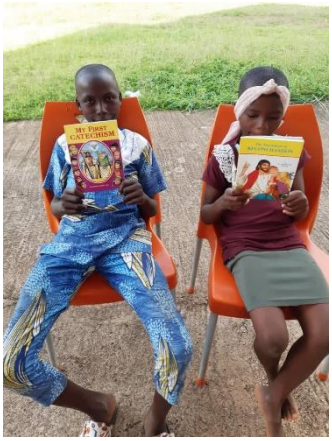
June 2025

We are delighted to have a continued communication with Sr. Priscilla. We have been able to help supply liturgical items for the sisters' Chapel and this will continue. We have also sent suitable devotional and practical items as required or requested.

We have also manoeuvred round the weird and wonderful postage system to ensure that the parcels arrive

We have also found that WhatsApp has been a blessing for quick questions and answers and speeded up the process of helping (all) our projects.

July 2025

We received the following lovely photo from Sr. Priscilla. She says "The photo below are two of our First Holy Communion children on 21st June 2025. I had doctrinal/catechism class with them today. The female one did very well in their Catechism exam. She got 92%. In fact I'm very proud of her".


She and the boy are holding books that we send. How good is that?
